PROFESSIONAL SUMMARY

AI Engineer and Backend Systems Specialist with expertise in FastAPI, multi-agent architectures, and GPT-based applications. Experienced in building scalable, secure, and production-ready systems. Combines 15+ years of financial domain expertise with modern software engineering to deliver intelligent, high-performance solutions for real-world problems.

TECHNICAL SKILLS

Languages: Python, TypeScript, SQL
Backend: FastAPI, Node.js, Express, REST APIs, WebSockets
Frontend: React, Next.js, Tailwind CSS
AI/ML: GPT-4, LangChain, LangGraph, Vector Databases
Databases: PostgreSQL, MongoDB, SQLite, Pinecone
Cloud/DevOps: AWS, Docker, GitHub Actions
Security: JWT, RBAC
Data: Power BI, DAX

PROJECTS

Project Atlas – Multi-Agent AI Platform

- Built multi-agent AI system using FastAPI and LangGraph
- Achieved 95% intent accuracy with GPT-based processing
- Implemented async execution improving performance by 3x
- Designed real-time system supporting 100+ concurrent users

AI-Enabled Healthcare Management Platform

- Developed AI-powered hospital system with secure RBAC architecture
- Integrated AI for patient insights, report summarization, and anomaly detection
- Built scalable APIs and real-time data processing system

AI-Enhanced MSA ERP System

- Designed GAAP-compliant ERP with accounting, CRM, HR, and inventory modules
- Implemented financial validation logic and automation
- Added AI-based anomaly detection and financial insights

PROFESSIONAL EXPERIENCE

Accountant – Khasab Travel and Tours, Oman (2010–2025)

- Managed full-cycle accounting and financial reporting
- Automated reporting processes and improved efficiency
- Applied financial expertise to system design and data solutions

EDUCATION & CERTIFICATIONS

Associate Degree in Computer Science – University of the People
AWS Certified Cloud Practitioner
Google Data Analytics
IBM SQL for Data Science
Diploma in Computer Science
